DME Prior Authorization Required Information and Methods to Submit Requests

Keys to Successful Prior Authorization

To obtain prior authorization on the very first submission, the provider submitting the request will need to gather four (4) categories of information:

Insufficient Clinical – Additional Documentation Needed

Additional Documentation to Support Medical Necessity

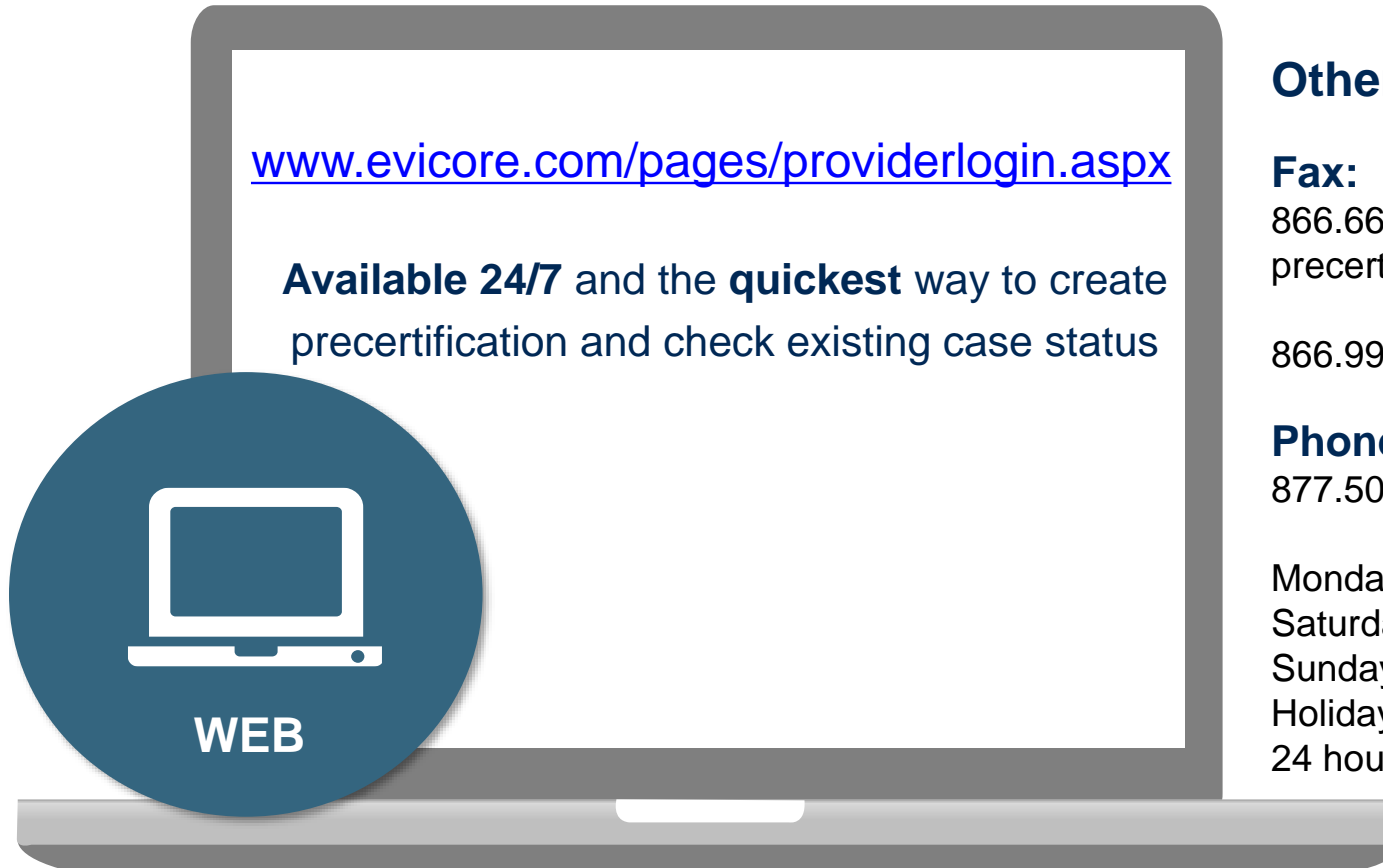

If during case build all required pieces of documentation are not received, or are insufficient for eviCore to reach a determination, the following will occur:

- The Hold notification will inform the provider about what clinical information is needed as well as the date by which it is needed.
- Routine requests may remain in a hold status for up to 8 calendar days. Urgent case hold time is up to 24 hours.
- Determination should be completed within 2 business days for a routine request and within 72 hours for an Urgent Request. If additional clinical information is needed, a routine case could take up to 12 calendar days following receipt of request for the service.

Methods for Precertification Requests

Other methods:

Fax:

866.663.7740 for DME with precertification form

866.999.3510 for Sleep DME

Important: eviCore recommends a completed DME precertification form for all DME requests submitted by fax

Prior Authorization Outcomes and Special Considerations

Prior Authorization Outcomes

Determination Outcomes:

- **Approved Requests:** Authorization start date will begin on the date of case creation, minus retroactive requests. Monthly rentals are valid for how many units are approved. Purchases are usually valid for 180 days and daily rentals are usually valid for 90 days.
- **Denied Requests:** Based on evidence-based guidelines, if a request is determined as inappropriate, a notification with the rationale for the decision and post decision/appeal rights will be issued
- **Partially Approved Requests:** In instances where multiple HCPCS codes are requested, some may be approved and some denied. In these instances, the determination letter will specify what has been approved as well as post decision options for denied codes.

Notifications:

- Authorization letters will be faxed to the ordering physician
- Web initiated cases will receive e-notifications when a user opts in to receive
- Members will receive a letter by mail
- Approval information can be printed on demand from the eviCore portal:
www.eviCore.com

Post-Decision Options: Medicaid Members

My case has been denied. What's next?

Your determination letter is the best immediate source of information to assess what options exist on a case that has been denied. You may also call eviCore at 877-506-5193 to speak to an agent who can provide available option(s) and instruction on how to proceed. Alternatively, select 'All Post Decisions' on www.eviCore.com, under the authorization lookup function, to see available options.

Reconsiderations

- Reconsiderations must be requested within 14 calendar days after the determination date
- Reconsiderations can be requested in writing or verbally via a Clinical Consultation with an eviCore physician

Appeals

- eviCore will not process first-level appeals
- Please refer to the denial notice for instructions, and requirements, to submit an appeal

Special Circumstances

Retrospective (Retro) Authorization Requests

- Must be submitted within 180 calendar days from the date of services
- Retro requests submitted beyond this timeframe will be administratively denied
- Reviewed for **clinical urgency** and medical necessity
- Retro requests are processed within 30 calendar days
- When authorized, the start date will be the submitted date of service

Urgent Prior Authorization Requests

- eviCore uses the NCQA/URAC definition of **urgent**: when a delay in decision-making may seriously jeopardize the life or health of the member
- Can be initiated on provider portal or by phone
- Urgent cases are typically reviewed within 24 to 72 hours

Special Circumstances cont.

Alternative Recommendation

- An alternative recommendation may be offered, based on eviCore's evidence-based clinical guidelines
- The ordering provider can either accept the alternative recommendation or request a reconsideration for the original request
- Providers have up to 60 days to contact eviCore to accept the alternative recommendation

Authorization Update

- If updates are needed on an existing authorization, you can contact eviCore by phone
- If the authorization is not updated and a different supplier location or HCPCS code is submitted on the claim, it may result in a claim denial
